

# Ni Mommy

**She Deserves All Your Love.**

This is a website for every mother chosen by God to carry a soul between her bowels. During pregnancy This website will be the best companion for every mother, as it will help in calculating the months of pregnancy and the expected time for cuddling her little baby, providing some medical advice and information, in addition to supporting and encouraging her with some motivating phrases in this pleasant journey.

The weight of the fetus became 2.2 kg, and he is still continuing to gain weight, which is not yet complete.

This month, you will notice an increased feeling of fatigue, frequent urination and anxiety.

You should avoid caffeine and fried foods. You should try to eat a lot of fruits like Orange, Mango, Apple

Being pregnant means every day is another day closer to meeting the other love of your life.

Tack me back

Bye Bye mommy
